

MUHAMMAD AQIL FAHMI

SOFTWARE ENGINEER

Brebes, Jawa Tengah | 089509069473 | maqilfahmi20@gmail.com

Fresh graduate Informatics Engineering student with experience in web application development using PHP, Laravel, JavaScript, MySQL, and PostgreSQL. Familiar with SQL Server for database management and ASP.NET fundamentals for web development. Strong analytical, problem-solving, and teamwork skills gained through academic projects and internship experience. Able to adapt quickly to new technologies and interested in developing efficient and reliable information systems.

TECHNICAL SKILLS AND SOFT SKILLS

Technical Skills

- Languages: JavaScript, TypeScript, PHP, Python
- Frameworks: React.js, Next.js, Laravel, ASP.NET
- Database: MySQL, PostgreSQL, SQL Server
- Tools & Technologies: Prisma, REST API, Midtrans, Git

Soft Skills

- Analytical Thinking
- Teamwork & Collaboration
- Communication Skills
- Adaptability (Fast Learner)

INTERNSHIP AND ORGANIZATIONAL EXPERIENCE

- **Informatics Engineering Student Association — Information and Communication Division.** Managed and developed organizational media and information systems to improve communication effectiveness.
- **Diskominfo Kota Semarang - Intern.** Developed a fullstack web application using PHP (Laravel) for an elementary school to support digitalization and improve data management efficiency.

PROJECT EXPERIENCE

Frontend Web Developer Pariwisata Sinok Sitong Brebes

May 2023 - Oct 2023

- Developed a tourism website interface using HTML, CSS, Bootstrap, and JavaScript to improve information accessibility.
- Built responsive and user-friendly interfaces to enhance user experience across multiple devices.
- Improved user experience through interactive and intuitive UI/UX design.
- Optimized website performance and loading speed for better user engagement.

Fullstack Web Development UKMPPD With Payment Gateway

Okt 2025 - Des 2025

- Developed a scalable edtech platform using Next.js, TypeScript, Prisma, and PostgreSQL, featuring online exams, OAuth authentication, and role-based access control.
- Integrated Midtrans payment gateway with webhook handling to automate payment processing and subscription activation.
- Designed and implemented an admin dashboard with dynamic access control for premium content based on user subscription status
- Improved system performance and ensured efficient data handling for reliable application usage

EDUCATION

Dian Nuswantoro University

Sept 2022 - Feb 2026

- Bachelor of Informatics Engineering
- Thesis : Machine Learning-Based MSME Sales Prediction Using K-Means and Ensemble Voting

ADDITIONAL INFORMATION

- **Languages:** Indonesian, English.
- **Certifications:** Ilmuan Data Madya (Associate Data Science), TOEFL with score 580, BASS Training Center Literasi AI, SINTA 3 Journal Publication — MSME Sales Prediction Using K-Means and Ensemble Voting (2025).
